PROFESSIONAL SUMMARY

Second-year B.Tech student and self-taught full-stack developer with hands-on experience building production-grade web applications using the MERN stack. Proven ability to independently ship responsive, user-focused products — from client websites to full-featured peer-to-peer platforms. Passionate about building tools that solve real problems for real users, with strong skills in React, Node.js, and real-time systems.

PROJECTS

SkillSpace — Student Skill Exchange Platform

Full-Stack Developer | 2026–Present

A peer-to-peer web platform enabling students to discover, share, and exchange skills through a collaborative feature-rich environment.

- Architected and built end-to-end using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Built real-time **chat** system using Socket.io, enabling instant peer-to-peer messaging between students
- Developed a **video call scheduling** module allowing students to book, manage, and join 1-on-1 skill sessions
- Implemented a **resource sharing** feature for uploading, browsing, and exchanging study materials and guides
- Designed skill discovery and matching system to intelligently connect students with complementary skill sets
- Built responsive, accessible UI with Tailwind CSS; structured codebase for scalability and maintainability

Personal Portfolio Website — shashiraj.vercel.app

Frontend Developer | 2024

A professional portfolio built to showcase MERN stack projects, skills, and experience with a focus on performance and modern design.

- Developed with React.js (Vite) and Tailwind CSS; deployed on Vercel with optimised Core Web Vitals performance
- Implemented smooth animations, dynamic project filtering, and a fully responsive layout for all screen sizes
- Designed with accessibility standards in mind; acts as a live professional presence for recruiters and clients
- Integrated contact and social linking to streamline recruiter outreach and professional networking

accelerates.online — Client Business Website

Freelance Frontend Developer | 2025

- Built a complete client-facing business website using Next.js focused on fast performance and clean visual design
- Delivered a fully responsive, cross-device layout; iterated on design based on direct user and client feedback
- Managed the full project lifecycle independently — from requirements gathering and design through to deployment

EDUCATION

Delhi Technological University — B.Tech in Biotechnology

CGPA: 8.0 (Year 1) | 2024–2028
